

Micky Lo
*Managing Director,
Head of Asia IT Risk Mgmt
JPMorgan Chase Bank, N.A.*

Micky's current responsibilities include management of the Information Technology risk. He also manages a program that monitors the firm's IT security exposure in the region - including provision of security technology solutions to business and governance of LOB's IT Control Self Assessment (CSA) deliverables. He is also responsible for developing JPM's regional IT control policies to ensure they meet regulatory standards.

Micky joined JPM in 1997 and is based in HK. He has held various management positions in Global Technology Infrastructure (GTI) before taking on his current role in 2004 - and has since expanded his team from three staff to the current 170.

Prior to JPM, Micky was a VP at Citibank Technology Group and Technology Audit department. He has worked in the HK and Florida office of Citibank.

Micky is also a Certified Information Security Auditor.
